

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 3 September 1964

1. (Internal Use Only - JSW) Talked with Congressman Bob Wilson as a result of word received by Mr. Bannerman from GSA that one Ed Neff from Wilson's office had raised some queries concerning Building 213. Bannerman advised Daly, Commissioner of Public Buildings, to advise Neff that the Congressman would be contacted by an Agency representative. I gave Mr. Wilson a brief rundown on the background of this building and its purposes and explained that this was considered classified. Mr. Wilson indicated, of course, he did not wish to get information as to why [redacted] was selected and why it was not put out on hide. I gave him a fill-in on the reasoning behind the latter point. I indicated to Wilson that I assumed his investigator would be contacted further by GSA and they could go into these two points with him.

2. (Internal Use Only - JSW) George McManus, Frank O'Malley and John S. Warner met with Mr. Osher to discuss the question of the transcript of Monday's hearing as well as to go into other types of information held by the Patman Committee. See detailed Memorandum for the Record.

3. (Secret - JSW) Talked with Robert E. Lee, Department of State, on the correspondence with the Department from Congressman Gubser involving [redacted] and raising certain questions about State Department security procedures. I stated I had filled in the details of the case insofar as [redacted] is concerned with Gubser and that Gubser wishes to get out of this matter gracefully. I explained that Gubser had problems on how to handle this and recommended that Lee talk personally with Gubser. Lee assured me that he knew Gubser well and he would follow through. Lee added that he had not been briefed in full on this case by his own people but said he would get the necessary information.
